4. This Court has original subject-matter jurisdiction over the entire action pursuant to 28 U.S.C. §§ 1331 and 1338(a) because Plaintiff's claim arises under an Act of Congress relating to patents, namely, 35 U.S.C. § 271.

5. This Court has personal jurisdiction over Defendant because: (i) Defendant is present within or has minimum contacts within the State of Texas and this judicial district; (ii) Defendant has purposefully availed itself of the privileges of conducting business in the State of Texas and in this judicial district; and (iii) Plaintiff's cause of action arises directly from Defendant's business contacts and other activities in the State of Texas and in this judicial district.

## **III. INFRINGEMENT**

### **A. Infringement of the '131 Patent**

7. On August 30, 2016, U.S. Patent No. 9,430,131 (“the ‘131 patent”, included as an attachment) entitled “System, Methods, And User Interface For Organizing Unstructured Data Objects” was duly and legally issued by the U.S. Patent and Trademark Office. Plaintiff owns the ‘131 patent by assignment.

8. The ‘131 patent relates to novel and improved systems and methods for conducting electronic commerce.

9. Defendant maintains, operates, and administered systems, products, and services that facilitate organizing and structuring an unstructured collection of electronic objects that infringes one or more of claims 1-20 of the ‘131 patent, literally or under the doctrine of equivalents. Defendant puts the inventions claimed by the ‘131 patent into service (i.e., used them); but for Defendant’s actions, the claimed-inventions embodiments involving Defendant’s products and services would never have been put into service. Defendant’s acts complained of herein caused those claimed-invention embodiments as a whole to perform, and Defendant’s procurement of monetary and commercial benefit from it.

10. Support for the allegations of infringement may be found in the following exemplary table included as Exhibit A. These allegations of infringement are preliminary and are therefore subject to change.

11. Defendant has and continues to induce infringement. Defendant has actively encouraged or instructed others (e.g., its customers and/or the customers of its related companies), and continues to do so, on how to use its products and services (e.g., organizing unstructured data sets by priority) such as to cause infringement of one or more of claims 1-20 of the ‘131 patent, literally or under the doctrine of equivalents. Moreover, Defendant has known of the ‘131 patent and the

technology underlying it from at least the filing date of the lawsuit.<sup>1</sup> For clarity, direct infringement is previously alleged in this complaint.

12. Defendant has and continues to contributorily infringe. Defendant has actively encouraged or instructed others (e.g., its customers and/or the customers of its related companies), and continue to do so, on how to use its products and services (e.g., organizing unstructured data sets by priority) and related services such as to cause infringement of one or more of claims 1-20 of the ‘131 patent, literally or under the doctrine of equivalents. Further, there are no substantial noninfringing uses for Defendant’s products and services. Moreover, Defendant has known of the ‘131 patent and the technology underlying it from at least the filing date of the lawsuit.<sup>2</sup> For clarity, direct infringement is previously alleged in this complaint.

13. Defendant has caused and will continue to cause Plaintiff damage by direct and indirect infringement of (including inducing infringement of) the claims of the ‘131 patent.

#### **IV. JURY DEMAND**

Plaintiff hereby requests a trial by jury on issues so triable by right.

#### **V. PRAYER FOR RELIEF**

WHEREFORE, Plaintiff prays for relief as follows:

- a. enter judgment that Defendant has infringed the claims of the ‘131 patent;
- b. award Plaintiff damages in an amount sufficient to compensate it for Defendant’s infringement, in an amount no less than a reasonable royalty or lost profits, together with pre-judgment and post-judgment interest and costs under 35 U.S.C. § 284;

---

<sup>1</sup> Plaintiff reserves the right to amend if discovery reveals an earlier date of knowledge.

<sup>2</sup> Plaintiff reserves the right to amend if discovery reveals an earlier date of knowledge.

- c. award Plaintiff an accounting for acts of infringement not presented at trial and an award by the Court of additional damage for any such acts of infringement;
- d. declare this case to be “exceptional” under 35 U.S.C. § 285 and award Plaintiff its attorneys’ fees, expenses, and costs incurred in this action;
- e. declare Defendant’s infringement to be willful and treble the damages, including attorneys’ fees, expenses, and costs incurred in this action and an increase in the damage award pursuant to 35 U.S.C. § 284;
- f. a decree addressing future infringement that either (i) awards a permanent injunction enjoining Defendant and its agents, servants, employees, affiliates, divisions, and subsidiaries, and those in association with Defendant from infringing the claims of the Patents-in-Suit, or (ii) awards damages for future infringement in lieu of an injunction in an amount consistent with the fact that for future infringement the Defendants will be an adjudicated infringer of a valid patent, and trebles that amount in view of the fact that the future infringement will be willful as a matter of law; and,
- g. award Plaintiff such other and further relief as this Court deems just and proper.

DATED: April 13, 2022

Respectfully submitted,
