Likes: great design, makes diamond painting much more efficient and quicker. Perfect handheld size.

Dislikes: The tips pop out of the pen casings occasionally, could be glued into the resin better. Not a huge deal.

★★★★★ **They work as stated..**

Reviewed in the United States on July 24, 2022

Color: 7Colors-14tips | **Verified Purchase**

The tools were just like the picture and no need to do a photo.

They work, you just have to make sure to start with the number 2, when you have got that down to a science use a bigger number then your on your way.

They fit the round ones didn't try the square one ever.

I've done Diamond art for 6 ears. Lobe doing the pictures. A friend gave me a print that was 20" x 24". The tip that I was using with my stylist was OK and then I saw these stainless steel tips. They ended up being something I wish I had gotten sooner. Thanks. Great product!!!

What makes your diamond painting a true joy? Having a solid stainless steel tip in your diamond painting pen. These tips are invaluable. They are worth every penny. I've put them in every diamond painting pen I own. They never flare out, bend or break. I feel they work well with regular drills, AB's and rhinestones. Sometimes you may need a different adhesive but the tips are highly adaptable. Again they are extremely strong. I've never had to replace one and I'm certain a few are at least a year old. If you are questioning an investment in your diamond painting tools don't question purchasing these tips. You will love them.

Disappointed

Reviewed in the United States on June 22, 2022

Verified Purchase

I was so excited to get my steel placers for my diamond paintings. Sadly, I am extremely disappointed in these. They don't stay solidly in the pen and shift constantly. It's almost impossible to place drills accurately. Even trying to get wax or putty loaded into it is hard because they move around too much to dip in cleanly. I've tried using washi tape to help stabilize them and make a better fit but that didn't even work. Don't waste time and money on these.

This diamond art pen tool is definitely an upgrade from the skinny plastic one that often comes with kits. I like that it comes with plenty of attachments and lots of wax. I do wish the "sparkles" inside the resin were more evenly spread out, but it is still pretty. Also, be careful not to drop... one fall off my table resulted in a chip in one of the ends resulting in the need to be very careful if you use an attachment on that end. Overall it is worth the purchase to my diamond art kit!

So it's a pretty purple color and it does glow in the dark what I didn't like was that the white Resin Pat looks dull and scratched I was going to return it but I do like glow in the dart stuff even tho it's impractical cause you can't really diamond paint in the dark. The shape and hold I thicker and very comfy in my hand

I purchased this pen as my dogs have chewed 3/4 of the pink ones that come in the kits. I have a ton of the pink ones don't get me wrong. I got this one in the purple metal. It came with different tips and 3 different wide tips to use 3 drills at a time or 6/9. One of the tips is curved at a 45 degree angle which I LOOVVEE. The pen also comes with plastic tops as well and you can choose which ones you want to use. I want to order the other 2 colors that they offer as well. I would 100% suggest this pen to family, friends or anyone looking to buy one!

About this item

- This resin diamond art painting pens is handmade on a lathe and built in moon, star, and heart shaped glowing piece. After a few minutes under strong light, it can glow in the dark when the light is turned off. Glitter pens will add fun to your life.
- The diamond painting accessories pens offer a better experience than the standard slim diamond painting pen in most set, length 4.9" weighs 1.2 oz and has a smooth surface! The weight and length are ergonomically designed to be used for hours without hand fatigue.
- The metal tips are made of high quality stainless steel, smooth and durable, with good rust resistance, not easy to damage and deformation, can be used for a long time. The diamond art painting pen is made of resin with smooth surface and comfortable grip without hand fatigue, making your DIY process easy and comfortable.
- The 5D DIY diamond art painting pen metal tips surface has a very beautiful metallic luster, which is very attractive with any diamond art pen. Drill tips also have nice adhesive force, you can grasp diamonds easily and use them with the Glue wax, it is a nice tool to save your time and energy! Which will bring you a pleasant user experience, and save most time to make diamond paintings or other DIY projects.
- Package include: 1x Luminous 5D resin pen, 6x Metal Replacement Pen Heads (1*metal tip, 1* elbow pen tip, 1x3/6/9-drills bit, and 1x corrective pen tip), 20x Glue clay, 2x Tweezers, 1x drill tip storage box.

How customer reviews and ratings work

Customers say

Customers find the diamond brush metal nibs to be of great quality and say they work well. However, the fit receives mixed feedback, with some saying they fit their pens great while others report issues. Additionally, wax retention is also mixed, with one customer noting that the wax sticks perfectly fine while another mentions it falls out when getting wax.

 Great product at a great price (bought for 9.99). Made of metal, not cheap tin and comes with extra o-rings. The case is handy too so the heads don't wander around your diamonds dot box.

 These don't set it pens very well. In the 6-10 placers I have to hold the pen and hold the diamond holder
 To get wax.
 I've tried replacing the seals with the bands they sent but it's not making it better, they still fall out when getting wax.

Set completo y de buena calidad, aunque otros son mas baratos e igual de buenos. Las puntas son fáciles de poner y quitar aunque se mueven un poco. también sirven para los bolis básicos que vienen en los kits.La arcilla también muy buena. No uso las alfombrillas porque son pegajosas, pero para quien las use es un plus.

★★★★★ Very nice - easy to use

Reviewed in the United States on April 2, 2024

Verified Purchase

These tools are very nice and easy to use. My daughter has enjoyed them so far and says they hold up. However, we accidentally threw away the clear tips so we don't know how they would work. We didn't realize it until it was too late to retrieve it from the garbage. Talk about disappointed.

I'm still new to diamond art but this has changed the game for me! The three handles that come with it are adorable and great quality. They have a unique shape to them that's comfortable in the hand and makes it easy to use. Comes with everything you need!!

★★★★★ Diamond Art Pen

Reviewed in the United States on August 27, 2025

Verified Purchase

Highly recommend this set to anyone who wants to explore the art of Diamond painting. The glue that comes is very sticky and holds in place and the fit to your hand is more ergonomically and easier to use. The color of the tubes/pen piece is really pretty. High quality and thickness makes for ease to use.

Love these tops. I am a big girl. Only the navy blue comes in my size. I wish some of the other colors did. I would buy every color.

★★★★☆ Love the plastic tips

Reviewed in the United States on May 7, 2023

Great set. The plastic tips work great. I kept the set because I like the plastic tips and the set. The metal tip are very loose. Yes, they had the rubber bands on them and they were new. Plus the tips weren't the right size to pick up the dimonds.

★★★★★ What a difference

Reviewed in the United States on October 3, 2023

Verified Purchase

I will admit I am stubborn and I always thought how much of a difference could these truly make from the plastic pens. Well smack my mouth with a fly swatter because I will never go back. Speaks things up. More steady. Secure. If anything wish they held tighter but they don't fall out or anything (attachments) just at times twist. But that's just me being picky right

★★★★★ Still need to work to keep straight

Reviewed in the United States on September 24, 2024

Verified Purchase

It is still a challenge to keep rows straight. It seems when you get to the higher number of beads the more difficult to use. Uses 5 or 6 bead holder seems the best.

★★★★★ A Game-Changer for Diamond Painting!

Reviewed in the United States on June 1, 2025

Color: 16pcs silver tips | Verified Purchase

I absolutely love this diamond painting pen! From the moment I picked it up, I could tell it was made with quality and comfort in mind. The ergonomic design makes it easy to hold for long sessions, and the added weight gives me more control and precision—no more hand cramps!

The multi-placer tips are a huge bonus and work beautifully for both detail work and filling in larger areas quickly. The pen glides smoothly over the canvas, and the wax holds well without constantly needing to reapply. Plus, the design is stunning—it adds a bit of sparkle and personality to my toolkit.

If you're serious about diamond painting or just getting started, this pen is a must-have. It's made the whole process more enjoyable and efficient. I'll definitely be buying another one as a backup!

Love it. Very comfortable tool and makes it enjoyable to do diamond paintings from a lady with arthritic hands. The bubbled design makes it easy to grip, the multi place heads fit the correct number of drills. Good value for the price.

★★★★☆ Not for me

Reviewed in the United States on June 7, 2024

Color: 16pcs rose tips | Verified Purchase

Nice pen and all the extras are nice though I don't see a use for the finger covers. It comes with little gasket things as that's how the placers stay on. I have to do a little twist and push it on and they don't really lock in. I just wanted to try it out and it's a nice pen. It's comfy, placers to choose from like you are set with this. I just don't see how it will work for me long term. I'm honestly not sure if there are pens that work for anyone long term as I'm new to diamond painting. But I let my kid try it as she likes to help a little and gave it back with a broken gasket thing. Which is now obvious why they send extras of those which is very convenient props for that. So it's not bad, not perfect. Also I don't like the single placer, it's too thick that I'm worried I'm messing up my diamond paint. If there's a way to get more of those gasket things that would make it better for sure. But still, I think I would try a threaded one next time in the hopes it locks in place. It is better than the plastic pens that comes with your kits of course so no regrets I think. I just wouldn't buy this one again. But I guess I'll need to try others and see what works for me. I think it can be a decent starter set maybe.

The pen works well, but there are a few items for you to consider, that may have impacted my decision.
No 1 The pen is very heavy, so after long use, your hand gets tired.

No 2 I am a very visual person so the colour matters to me. I loved the light colours of the image but when my pen arrived it was really dark, now I know this is not an exact science but if you are going for the colour don't. The stand was the perfect colour but not the pen.

Tip is bigger than the drills. Looks like tips screw in the don't really; more of a twist press in and not a tight fit. Won't be returning as UPS drop off or pay to return not worth my time.
