Love it. I wanted something more comfortable to hold since I do so many, and this is great. Also super cute, I get compliments all the time. The different attachments are nice too!

I purchased this pen as my dogs have chewed 3/4 of the pink ones that come in the kits. I have a ton of the pink ones don't get me wrong. I got this one in the purple metal. It came with different tips and 3 different wide tips to use 3 drills at a time or 6/9. One of the tips is curved at a 45 degree angle which I LOOVVEE. The pen also comes with plastic tops as well and you can choose which ones you want to use. I want to order the other 2 colors that they offer as well. I would 100% suggest this pen to family, friends or anyone looking to buy one!

So it's a pretty purple color and it does glow in the dark what I didn't like was that the white Resin Pat looks dull and scratched I was going to return it but I do like glow in the dark stuff even tho it's impractical cause you can't really diamond paint in the dark. The shape and hold is thicker and very comfy in my hand

The shape of the tool is wonderful and makes it easy and comfortable to use. The tool did break fairly quickly though, as there's a chunk missing at one end where you insert the piece you're using. I'm also not loving how thick the metal pieces are, especially on the single applicator. They are just thick enough that it bumps the drills next to the one you're trying to place and knocks it out of alignment.

The handles are very easy and comfortable to hold! The tips are too thick/bulky when trying to place the gems. Turns out I like the thin plastic tips that come with the paintings better.

★★★★★ Very smooth pen

Reviewed in the United States on October 8, 2023

Color: Purple Blue+Silver Tips | [Verified Purchase](#)

1st of all, it was way prettier than the pics. Such a deep blue with the purple. Then it is super smooth so it's not all rough on your hand. I like the large size since my hands hurt me alot. The little attachments were all very nice as well. Seems sturdy. The only thing I could say someone might not like is that if you tend to have sweaty hands the smoothness might work against you. For me tho, I love it! Nice product!

I love the color, design and weight. However, when I received this and used it just once, it lasted less than 24 hours. It accidentally rolled off the table and a small chunk of it broke off right where the number piece goes and now they won't stay in. I had to buy a completely different set from somewhere else. Don't want to deal with refund/return. Not worth the hassle in my opinion, just chalk it up to a loss.

I bought to have something a little bigger then the standard pen,just don't have the roller and the other part on at the same time cause it does make it heavy,but it is a good purchase.

Didn't even get to use it yet, tried to put the metal in and it broke. Tip seems to have been slightly too big for the hole causing it to break. Sad as I was excited to use but can not get the chance now. The tips seemed like a nice quality and the no slip mat is great, just disappointed with the pen.

Vine Customer Review of Free Product (What's this?)

These tools are super useful for diamond painting. I will note that the resin flower handle thing did break after a few days but I think I was just pushing one of the metal pieces in too far so not the manufacturers fault. I do wish that a second one of the white trays was included, but that's not a deal breaker for me. All in all, I do recommend this product.

★★★★☆ The pen is fat and slippery, the other items fine

Reviewed in the United States on January 19, 2024

Vine Customer Review of Free Product (What's this?)

Everything in the description was included in the package. The applicator pen is pretty, but kind of fat and slippery to hold. I would not call it "ergonomic." Also, the single drill tip is large compared to the cheap pink ones and the increased diameter makes it hard to place the drills precisely because you can't really see where they are going to go. I did not have any trouble picking up round drills. I did like how snugly the various tool ends fit in the pen. I have another "fat" pen and the applicators wobble and drive me crazy, that's why I got this one. I adore the included sticky mat. Putting the tray full of drills on the mat and having them stay put is wonderful. (I also bought more sticky mats and now my standalone car navigation device doesn't slide all over the dashboard.) Probably I'll keep the roller end and the multiplacer end on the pen permanently and use it for those purposes.

BEAUTIFUL SET. IMMEDIATLY USED THEM THE SAME NIGHT I GOT THEM AND THEY WORKED BEAUTIFLY. MY ONLY COMPLAINT IS THE METAL TIPS THE ANGLED TIP MOVES WHEN YOU PUT SOME PRESSURE DOWN TO PRESS THE DIAMOND BUT THAT IS JUST A MATTER OF ME GETTING USED TO IT. BEAUTIFUL PRODUCT. FRIENDLY SELLER.

I'm new to diamond painting and wanted desperately to love this gorgeous set of pens. Sadly, I don't. They're not the worst but the instability of the tips has become too frustrating for me to deal with. The tips swivel. The set comes with small bands for the tips but they are of little to no help. I'm returning this set and am purchasing the screw in tip pens instead.

Good kit for accessories. The metal tips work well, pick up the drills well. The pens themselves fit the hand well and make it easier to work longer without hand cramping. It also comes with plastic tips, lots of goo. A good set to expand your tools.

Color: 38PCS-3 Pens-8 Rose Gold Metal Tips Kit [Verified Purchase](#)

The tools don't fit in all the pens. I can use them in my old pen but they should fit with the one's they came with. I now have 3 pens that I can't use. I do like the idea of the metal tools but would have bought them separately to save money if I knew the pens wouldn't work with them.

★★★★★ Nothing but Hearts

Reviewed in the United States on October 10, 2024

Style: tray Color: Tiffany blue(Heart) Verified Purchase

These Diamond painting trays are beautiful. I use them for dispensing Diamond painting drills. The great thing is they stack - like nesting dolls. And who doesn't like nesting anything. They are cute and perfect for someone who doesn't have a lot of space to work with. I like different kinds of trays and these fit in perfect with my collection. They are a little hard to use if you use a multi picker. But function perfectly with a single picker pen, making them a great value.

Did not fit on the light up pen I usually use but it fits on the pens that come with kits. I bought it for the square tip and it worked great.

I've been using the drill pens that came with the project. Not only do these tips make a difference, but they work much better. Beads cling easier to it.

★★★★☆ **Good for rounds, not so much for squares**

Reviewed in the United States on January 11, 2023

Style: Pen Tip Color: Rose gold2 [Verified Purchase](#)

These appear to be high quality tips. My only negative would be that the tips themselves are rather large and overlap the square drills so much they will actually push around other square drills already placed. I haven't tried these with round drills as I don't do those very often, but I think they will work well for those.
