

Safeguard your funds & Documents from hackers.

GR Legal is a Verified User of Securexchange - the safest way for law firms to exchange sensitive information in Australia. Using Securexchange safeguards your transaction and protects your funds from the threat of fraud.

Securexchange is also backed by a guarantee on funds.

Cyber-crime is on the rise and financial transactions are prime targets for hackers looking to intercept large money transfers. Exchanging account details and sensitive documents via email is not safe and leaves your transaction vulnerable to theft.

GR Legal partnered with Securexchange, a simple mobile website that allows you to safely view our account details and share your account details in a secure environment that is protected from interception by hackers. Documents may also be shared and requested for electronic signing. Securexchange is secured through two-factor authentication and encryption.

We take security seriously and we use Securexchange to ensure your transaction and your funds are protected. As long as you access our account details, only share your account details and access documentation within Securexchange, your funds are guaranteed.

How does it work?

Securexchange facilitates a simple and secure communication process.

1

We send you an electronic email invitation to join the Securexchange environment

2

Enter the transaction by entering the SMS authentication code

3

Securely view our account details, provide your account details and/or access shared documents

4

Upload receipts and other documents and ensure your funds are safe and guaranteed in the process

Choose Securexchange for your financial exchange today.
